The Journal of Phi Rho Sigma

Vol. XXXI March, 1935 No. 5

CATALOGUED BOSTON OCT 19 1936 MAY 8 1935 MEDICAL LIBRARY

PHI RHO SIGMA LOSES PIONEERING SURGEON

The medical profession lost an illustrious member and Phi Rho Sigma a loyal brother when death came to Dr. John E. Summers, H and I, on February 7, 1935. The world-renowned Nebraska surgeon succumbed to heart disease at his home in Omaha at the age of 77—seventy-seven years rich in significant experiences on the frontiers of surgery and replete with accomplishments that have won for him not only a place in medicine's hall of fame but, also, the esteem and admiration of all those who have benefited by his labors.

One of the foremost medical men of modern times, William J. Mayo, wrote of Dr. Summers, while he was still living, comments that may well be a lasting memorial to his greatness in death. In the words in which it appeared in the Nebraska State Medical Journal of April, 1932, Dr. Mayo's appreciation follows:

"In this age of industry, material success leads to the great financial rewards. But, although we do not belittle the comforts and, one might say, the opportunity at least for culture, that result from material prosperity, the great things of life are the imponderables, those qualities which cannot be weighed and measured, and can be estimated only in the spiritual sense.

Summers Great Leader, Says Mayo

"When one attempts to estimate the progress of medicine in the Missouri Valley in the last forty years, one realizes that the leadership which has given character to the splendid professional advance has come through a relatively small number of men. One of these great leaders of the generation which is just passing is Dr. John E. Summers.

"It is a source of gratification to us all that this man who, as a practitioner of surgery, a teacher in a medical school, and a leader not only in surgery but in all those attributes which go to make up a worthwhile professional life, is to receive on this occasion the felicitations of the profession he has loved and served so well, and of the people of a great country who have benefited by his service.

"Throughout my long acquaintance with Dr. Summers, as I have seen him at meetings of the American Medical Association, the American Surgical Association, the American College of Surgeons, and other gatherings, I have been impressed with the character of his scientific contributions to these conferences. He has been in the forefront of sound advances in surgery, yet without fads; with mature opinions based both on experience and on the study of professional literature, not only of the English speaking countries, but as expressed in other countries.

(*Continued on page 3*)

U. S. PUBLIC HEALTH SERVICE

Undoubtedly the announcement that the United States Public Health Service is to commission several new Assistant Surgeons this spring will be of interest to men now completing their hospital services, either as internes or residents. Examinations will be held in April or May. For further information, write the Surgeon General, United States Public Health Service, Washington, D. C., or ask for the booklet on "United States Health Service as a Career."

Applicants must not be over thirty-two years of age, pass a satisfactory physical examination, be a graduate from a Grade A medical school and have served at least an internship in an accredited hospital. Particular stress is laid upon general education and the oral examination. Examinations are held in Washington, Chicago, San Francisco, and New Orleans. Candidates must write the Surgeon General of the Public Health for permission to appear before an examining board.—Central Office.

NEWS SERVICE OFFERS "FRATERNITY CRITERIA"

The *Fraternity News Service* makes this statement of "Fraternity Criteria":

"We consider the fraternity responsible for a positive contribution to the primary function of the colleges and universities and therefore under an obligation to encourage the most complete personal development of its members, intellectual, physical, and social. Therefore, we declare:

(1) That the objectives and activities of the fraternity shoud be in accord with the aims and purposes of the institutions at which it has chapters.

(2) That the primary loyalty and responsibility of a student in his relations with his institution are to the institution, and that the association of any group of students as a chapter of a fraternity involves the definite responsibility of the group for the conduct of the individual.

(3) That the fraternity should promote conduct consistent with good morals and good taste.

(4) That the fraternity should create an atmosphere which will stimulate substantial intellectual progress and superior intellectual achievement.

(5) That the fraternity should maintain sanitary, safe, and wholesome physical conditions in the chapter house.

(6) That the fraternity should inculcate principles of sound business practice both in chapter finances and in the business relations of its members.

(*Continued on page 5*)

TEN DEANS HEAD LIST OF FACULTY MEMBERS

Listing among her alumni ten deans of medical schools and an impressive number of men in high positions on the faculties of Class A medical schools throughout the country, Phi Rho Sigma can be justifiably proud of her contribution to medical education.

An effort has been made to list these members who have attained professorial rank—the results being presented in the pages of this number of the JOURNAL—but it must be remembered that there is also in the Fraternity's far-flung Alumni Chapter an untold number of assistants, instructors, and fellows. In addition to these, there are many teachers located in schools where the Fraternity has no chapters to furnish lists—men who have themselves failed to furnish information to the JOURNAL.

DEANS OF MEDICAL SCHOOLS

Frank Vinsonhaler, XZ, University of Arkansas.
Paul S. McKibben, Γ, University of Southern California.
Russell H. Oppenheimer, XB, Emory University.
Irving S. Cutter, I, Northwestern University.
Elias P. Lyon, Γ, University of Minnesota.
Charles W. N. Poynter, I, University of Nebraska.
George H. Whipple, Ξ, University of Rochester.
Richard B. Dillehunt, Γ, University of Oregon.
Earl B. McKinley, Z, George Washington University.
Byran M. Riley, H, Creighton University.

TEMPLE UNIVERSITY

Philadelphia, Pennsylvania

Dr. Arthur C. Morgan, ΛΦ, Professor Emeritus of Clinical Medicine.
Dr. W. Hersey Thomas, ΛΦ, Professor of Genito-Urinary Surgery.
Dr. Robert F. Ridpath, ΛΦ, Professor of Laryngology and Rhinology.
Dr. Harry Z. Hibshman, ΛΦ, Professor of Proctology.
Dr. Joseph C. Doane, ΛΦ, Clinical Professor of Medicine.

WASHINGTON UNIVERSITY

St. Louis, Missouri

Richard Paddock, AΔ, Assistant Professor of Clinical Obstetrics and Gynecology.
Ralph S. Muckenfuss, AΔ, Assistant Professor of Medicine.
Frank P. McNalley, AΔ, Assistant Professor of Clinical Obstetrics and Gynecology.
James L. O'Leary, Associate Professor of Cytology.

ST. LOUIS UNIVERSITY

St. Louis, Missouri

Charles Hugh Neilson, Γ, Associate Dean

(*Continued on page 2*)

FACULTY MEMBERS

(*Continued from page 1*)

and Professor of Internal Medicine.
Le Roy Sante, Professor of Radiology and Director of the Department.
Carrol Smith, Γ, Professor of Surgery.
Sol. A. Weintraub, Assistant Professor of Gynecology and Obstetrics.

JEFFERSON MEDICAL COLLEGE
Philadelphia, Pennsylvania

Creighton H. Turner, P, Assistant Professor of Medicine.
John De Carlo, P, Associate in Applied and Topographic Anatomy.
Norman M. Macneill, P, Associate in Pediatrics.
Henry K. Seelaus, P, Associate in Surgery.
Clifford B. Lull, P, Associate in Obstetrics.

UNIVERSITY OF PITTSBURGH
Pittsburgh, Pennsylvania

John Jenkins Buchanan, M.A., M.D., Ph.D., N, Professor of Surgery.
Charles Henry Henninger, M.D., X, Professor of Psychiatry.
Alexander Hunter Colwell, M.D., X, Associate Professor of Medicine.
John Perry Griffith, M.A., M.D., ΛΦ, Associate Professor of Surgery.
Thomas McCance Mabon, B.S., MD, N, Associate Professor of Hygiene and Preventive Medicine and Assistant Professor of Medicine.
Howard Henry Permar, M.D., X, Associate Professor of Pathology.
Robert Love Anderson, M.D., X, Assistant Professor of Urology.
Edwin Porter Buchanan, B.S., M.D., N, Assistant Professor of Surgery
Nelson Parke Davis, M.D., X, Assistant Professor of Surgery.
Ellis Mills Frost, M.D., X, Assistant Professor of Medicine.
William Henry Mayer, M.D., Assistant Professor of Neurology.
Chauncey Luck Palmer, M.D., X, Assistant Professor of Medicine.

UNIVERSITY OF ROCHESTER
Rochester, New York

George Hoyt Whipple, Ξ, Dean of the Medical and Dental Schools and Professor of Pathology.
Roy Gilbert Daggs, Assistant Professor of Physiology.
John Seward Lawrence, Associate Professor of Medicine.
Oliver R. McCoy, Assistant Professor of Parasitology.
Robert N. Ritchie, Associate Professor of Obstetrics and Gynecology.
Paul W. Bevan, Z, Assistant Professor of Pediatrics.

WAYNE UNIVERSITY
Detroit, Michigan

James A. MacMillan, A.M., M.D., F.A.C.S., E, Professor Emeritus of Proctology.
Richard M. Mercer, M.D., F.A.C.S., E, Professor Emeritus of Physical Diagnosis.
Charles D. Aaron, Sc.D., M.D., F.A.C.P., ΑΩΔ, Professor of Gastroenterology and Dietetics.
William M. Donald, M.D., F.A.C.P., E, Professor of Medicine.
Robert Cary Jamieson, M.D., E, Professor of Dermatology and Syphilology.
John C. Kenning, M.D., E, Professor of Roentgenology.
F. C. Schreiber, A.B., M.D., F.A.C.S., Professor of Brain and Nerve Surgery
William J. Stapleton, Jr., Ph.G., LL.B., M.D., F.A.C.P., E, Professor of Jurisprudence, Ethics, and Economics.
H. Wellington Yates, M.D., F.A.C.S., E, Professor of Gynecology and Obstetrics.
Clark D. Brooks, M.D., F.A.C.S., E, Associate Professor of Surgery.
Fred H. Cole, M.D., F.A.C.S., E, Associate Professor of Urology.
Douglas Donald, B.S., M.D., Z, Associate Professor of Clinical Medicine.
Bert U. Estabrook, M.D., E, Associate Professor of Preventive Medicine and Public Health.
Grover C. Penberthy, M.D., F.A.C.S., Z, Associate Professor of Surgery.
Harry B. Schmidt, M.D., Z, Associate Professor of Physical Diagnosis.
Russel W. Alles, M.D., F.A.C.S., E, Assistant Professor of Obstetrics and Gynecology.
Charles S. Kennedy, B.S., F.A.C.S., M.D., Z, Assistant Professor of Surgery.
Clarence I. Owen, M.D., E, Assistant Professor of Pathology.

UNIVERSITY OF PENNSYLVANIA
Philadelphia, Pennsylvania

Warren S. Reese, P, Assistant Professor of Ophthalmology, Graduate School of Medicine; Chief of Ophthalmology Service, Pennsylvania Hospital; Assistant Surgeon, Wills Hospital; member Amer. Oph. Soc., Amer. Acad. Oph. and Oto-Laryng., Amer. Col. Surgeons, A.M.A., Penna. Med. Ass'n, and Ass'n for Research in Oph.
Harry Z. Hibshman, ΛΦ, Associate Professor of Proctology. Grad. Medico-Chirurgical College of Philadelphia. Formerly Proctologist American Stomach Hospital, Consulting Proctologist Northeastern Hospital, and Professor of Proctology, Temple University. F.A.C.S. F.A.P.S. Aesculapian Club. A.M.A. State and County medical societies.
Albert E. Roussel, ΛΦ, A.M., M.D. Emeritus Professor of Medicine.
Joseph C. Doane. ΛΦ, M.D. Associate Professor of Medicine.
Andrew Callahan, ΛΦ, M.D. Assistant Professor of Medicine.
Earl D. Bond, N, A.B., M.D. Professor of Psychiatry.
Herbert J. Smith, ΛΦ, Ph.G., M.D. Professor of Dermatology.
Basil R. Beltran, ΛΦ, A.B., M.D. Associate Professor of Surgery.
Stillwell C. Burns, ΛΦ, M.D. Associate Professor of Surgery.
John A. McGlinn, ΛΦ, M.S., M.D. Associate Professor of Gynecology.
C. Howard Moore, ΛΦ, M.D. Associate Professor of Orthopedics.
Charles H. DeT. Shivers, M.D. Associate Professor of Urology.
A. G. Fewell, ΛΦ, A.B., M.D. Associate Professor of Ophthalmology.
Edward B. Gleason, B.S., M.D., LL.D. Professor of Otology.
Samuel R. Skillern, Jr., ΛΦ, B.S., M.D. Associate Professor of Laryngology.

(*Continued on page 7*)

COUNCILOR APPOINTED

Edward Kirk Maclellan, AH, 158 South Street, Halifax, formerly Associate Councilor, has been appointed Councilor for Nova Scotia.

LAMBDA SHOWS WAY TO EASTERN CHAPTERS

[EDITOR'S NOTE: The following brief historical sketch of Lambda Chapter, taken from "*THE MEDICO-COLLEGIAN*—The Memoirs of the Class of 1912," Medico-Chirurgical College of Philadelphia, was submitted too late for inclusion in the January number of the JOURNAL.]

"The first fraternity of the Medico-Chirurgical College, the first chapter of Phi Rho Sigma in the East and the chapter having on its roll the highest officer of the national body, Professor Joseph McFarland, who has held this office for six years, Lambda Chapter enjoys a distinction of which it is proud—proud of the fact that it is a part of a great representative medical fraternity and that its roster has claimed the name of the national president for several years.

"The chapter is now in probably its most successful year as regards lively interest, high conception of fraternity ideals, and in the scholarship of its members.

"Phi Rho Sigma is now by far the strongest fraternity at Chi, both as far as active as well as honorary members are concerned, and we are safe in saying that in no college has a fraternity a better faculty representation than Lambda Chapter. Eighteen worthy seniors will be lost by graduation this year, but Lambda will still maintain its high standard.

Lambda Is Pioneer In East

"Lambda has the distinction of being the first chapter of Phi Rho Sigma in the East. It sent its own members as delegates to organize and initiate chapters at Johns Hopkins University, University of Virginia, Harvard University, Jefferson, University of Pennsylvania, and Yale University, the latter having the Skull and Scepter Chapter, the strongest and most influential in Yale.

"The initial steps taken in the formation of Lambda Chapter were the culmination of freshman effort, originating with the 1903 Class in their freshman year.

"In December, 1899, eight members of this class—Doctors Heflin, Kirschney, King, Patton, Ramspacher, Schaffer, Johnson, and Wood—held a meeting in Logan Square one stormy afternoon, the result being the formation of a local chapter, then known as Alpha Pi Upsilon.

"The installation ceremony took place on the evening of May 3, 1901, at 125 North Seventeenth Street, being conducted by Dr. D. E. W. Wenstrand, A, then of Cook County Hospital, Chicago, Illinois, and secretary of the Grand Chapter, assisted by Doctors Downs, Δ, of Los Angeles, California, and Duryea, A, of Kings County Hospital, New York.

"Following the installation a banquet was served to Doctors Wenstrand, Downs, and Duryea, as well as to the Lambda Chapter's charter members—Drs. James R. Smith, C. Jasper Stoner, O. Luther Latchford, J. M. S. Polon, Harry R. Heflin, Austin D. Keller, S. Cameron Struthers, Carl Kirschner, J. Henry Schaeffer, T. Benjamin Johnson, William C. Minnick, E. Forrest Bickel, Frank R. Sheppard, Theodore Ramspacher, Percy R. Deckard, Percy De Stanley, Charles F. Altmiller, James S. Hammer, Harry B. Patton, Francis P. Richards, and D. Davis King."

PIONEER SURGEON DEAD

(*Continued from page 1*)

CAT.

Grasp of Discoveries "Stimulating"

"And it is stimulating to all of us, especially to those who are getting into the shady years, to note his steady grasp of important medical discoveries and his interest in scientfic meetings, as expressed by his continuing contributions.

"We are inspired by seeing this surgeon, who might be classed as one of the last of a great group, retaining his professional interest, and with the quiet confidence of years, by precept and example teaching the younger men the obligations of a professional life.

"It is not my small part in this festschrift to consider in more detail the effect of Dr. Summers' influence on the progress of surgery, but rather to indicate that the spirit which carries on to the end and passes the torch to those who are to follow has its rewards based not on the material but on the spiritual side of life."

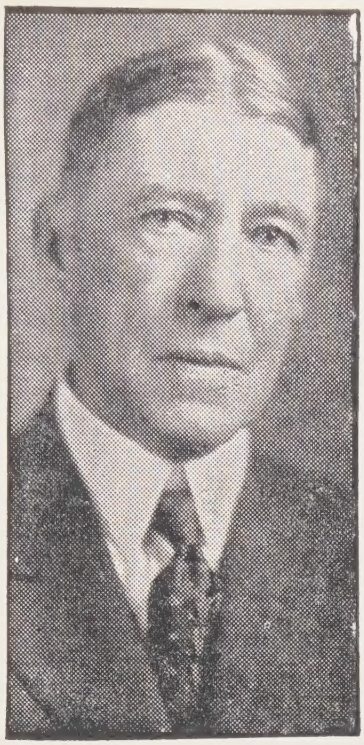
Started in Army Career

The son of General John E. Summers, of the medical department of the United States Army, Dr. Summers was born at old Fort Kearney, where his father was military surgeon, in the state in which he labored so brilliantly the greater part of his life. From these military surroundings he went to the United States Military Academy at West Point with the intention of following an army career, but after three years he resigned to begin the study of medicine. Graduating from the College of Physicians and Surgeons, now the medical department of Columbia University, in 1881, he joined the army as acting assistant surgeon and served for almost two years in frontier posts in Wyoming. He then resigned and studied for two years in Europe, chiefly in Vienna, returning to the United States in 1885 to locate in Omaha.

"Almost immediately," writes Dr. F. A. Long, editor of the Nebraska State Medical Journal, in the issue of April, 1932, "he became widely known as a surgeon and was appointed surgeon-in-chief of Clarkson hospital"—a position he held all through life. In 1887 he joined the faculty of the Omaha Medical college; was elected a trustee in 1890; became secretary of the faculty in 1891 and president of the board in 1897; and resigned in 1902 when the school affiliated with Nebraska university, to return as professor of clinical surgery when the four-year course in medicine was established.

Organization Memberships Numerous

That Dr. Summers was widely known in his profession locally, nationally, and internationally is amply attested to by his memberships in medical organizations. He was a member of the Societe Internationale de Chirurgie; fellow of the American Surgical Association and vice-president in 1916; fellow of the American College of Surgeons; member of the American Medical Association; fellow and past president of the Western Surgical Association; past president of the Medical Society of the Missouri Valley, Nebraska State Medical Association, and Douglas County Medical Society; and member of the Association of Military Surgeons of the United States. He was surgeon general of the Nebraska national guard under former Governor James E. Boyd. An honorary Doctor of Laws degree was conferred upon him several years ago by the University of Nebraska.



DR. JOHN E. SUMMERS

Was Prolific Writer

Skilled wielder of the scalpel that he was, Dr. Summers was also adept with the pen. A hint as to how prolific a writer he actually was is found in Dr. Long's "Annotations on the Summers Syllabus" in the Nebraska State Medical Journal previously referred to. "In looking through the Syllabus of Dr. Summers' writings," Dr. Long says, "one is struck, first, with the number of contributions—146 papers, 60 book reviews and a volume on 'The Modern Treatment of Wounds' (written between 1886 and 1932)—and second, with the wide field of surgical endeavor covered."

In the "Annotations," also, some of the highlights of Dr. Summers' trail-blazing career are presented:

"If we begin with the earliest years and proceed in an orderly manner we are struck by the removal of a sand-burr from the larynx, aided by the laryngoscope, the first performed in Omaha, in 1888 . . . . Somewhat intimate knowledge of Dr. Summers' early training in surgery justifies this writer (Dr. Long) in stating that Dr. Summers was trained in laryngology as well as general surgery; hence, this procedure was relatively easy for him, where others had failed.

Did First Wry-Neck Incision

"The originality and open-mindedness of Dr. Summers early asserted itself, for in 1889 he did the first wide-open incision for wry-neck found in literature, with happy results."

Later we read that "The removal of the appendix for suppurative appendicitis in a child of twenty-one months, with recovery of the child, was done in 1891, the youngest case for which removal of the gangrenous appendix had been done to that date."

The earnestness with which Dr. Summers adventured into these untrod fields and the intenseness of his realization of the medical profession's social responsibility are clearly reflected in his "Wayside Gleanings of a Pioneer Surgeon," written some forty years after this accomplishment of 1891, in the issue of the Nebraska State Medical Journal dedicated to him—that of April, 1932. "'It is humiliating to acknowledge," he wrote, "the justification of the public in berating us for the climbing death rate in appendicitis. The statistics of the insurance companies justify this. A most urgent revision of the surgery of the intestinal tract, particularly that of the appendix, is necessary. The death rate of appendicitis is climbing, so that now in America (1932) it is from two to five times that of other civilized nations of the globe. This is not the fault of those who developed and perfected the technique and the opportune time for operation, but rather a disregarding of such teachings, Ochner's and J. B. Murphy's particularly. This is especially noticeable since 1910. A death rate increase from then of 13.3 per 100,000 to today of 18.1 per 100,000; 20,000 deaths from appendicitis occur a year in the United States, practically all after operation. Reckless work is being done by overly-ambitious, unseasoned operators. The public may some day learn the difference between surgeons and operators. Teachers in our schools should themselves be more careful in explaining the time when to and when not to operate, and in their work using internes as assistants, emphasize the details of safety and the reasons. The neophyte cannot copy such work, he must learn to act according to the local pathology and the general condition of his patient."

Did First Nephrectomy in Nebraska

Returning to the "Annotations," we learn that Dr. Summers "did the first nephrectomy in Nebraska in 1893, in a case of tuberculosis of the kidney." "The patient is well, today," Dr. Long adds, "living at Broken Bow, Nebraska." "He reported the first case in America and the third in literature of Choledocho-enterostomy done in 1899 and reported it in the Journal A.M.A., March, 1900," Dr. Long informs us, and, later, "He originated the procedure and in 1908 operated and published the result of 'The Treatment of Limited Annular Gangrene of the Small Bowel by Invagination Versus Resection'," carrying out this procedure in two cases with successful results.

"Not content with the limits of the field of general and abdominal surgery, in 1913 he entered the newer field of surgery on the heart by doing the first Cardiolysis (Brauer's) operation in America and renamed the operation 'Decompression'." An achievement which attracted wider attention, perhaps, than any other of his works was the rarely performed heart operation, involving (in the words of Dr. Long) "a stab wound in the chest ripping the pericardium and flooding the chest cavity."

Had Widespread Interests

"The Syllabus," Dr. Long states, "indicates his early interest in spinal anaesthesia;

(*Continued on page 9*)

CHAPTER NEWS

CHI ETA CHAPTER

St. Louis University

Chi Eta was successful last Fall in pledging twelve freshmen, six of whom are the sons of doctors.

The Chapter is occupying a new home at 3305 Russel Boulevard, in St. Louis, and the house is filled to capacity with 27 students in residence.

The members of Chi Eta, together with Alpha Delta Chapter of Washington University, were the guests of Dr. Le Roy Sante at the St. Louis City Hospital, in November, 1934. Dr. Sante's excellent lecture on the history and the discovery of radium, accompanied by illustrations of the therapeutic value of radium in treating malignant growth, was followed by a lunch.

Dr. S. A. Weintraub gave the first of a series of fireside talks scheduled for the 1934-35 school year. Thirty-five members heard his very interesting lecture.

Brother Fred E. Rose has been elected to membership in Alpha Omega Alpha, national honorary medical fraternity. He was the only fraternity man on the University campus to achieve this distinction.

Attend ΦPΣ Luncheon at Atlantic City session of A.M.A. Hotel Ambassador Wednesday, June 12th.

IOTA CHAPTER

University of Nebraska

The new officers elected late last Fall are: president, Darrell A. Campbell; vice-president, John Bell Krahl; recording secretary, Louis S. Campbell; and corresponding secretary, Wm. B. Potter. McCleery Glazier continues as steward; a new senior warden will be elected from the present freshman class.

The initiation was held on March 22 with John L. Batty, John J. Modlin, Orville M. Moore, Olfert W. Topp, Roy R. Pierson, James K. Shafer, and Ross Van V. Taylor of the freshman class, and Lester J. Buis, Jack Farris, and Ralph T. Cunningham of the sophomore class receiving the pin. The ceremony preceded a large banquet honoring the intiates. Dr. A. J. Brown, I, Dr. J. F. Allen, I, and Dr. D. D. Stonecypher of Nebraska City were the speakers. John Modlin gave the response for the initiates.

The senior internship appointments are as follows: Blair S. Adams and Hollis H. Brainard, King's County Hospital, Brooklyn, New York; Porter S. Cannon, Fitkin Memorial Hospital, Asbury Park, New Jersey; Kenneth R. Drewelow, St. Luke's Hospital, San Francisco, California; J. Edw. Feldmayer, Columbia Hospital, Milwaukee, Wisconsin; Norton L. Francis, Atlantic City Hospital, Atlantic City, New Jersey; Gordon A. Gunn, California Lutheran Hospital, Los Angeles, California; Frank W. Gwinn, Northwestern Hospital, Minneapolis, Minnesota; Linus W. Hewit, City of Detroit Receiving Hospital, Detroit, Michigan; Robert A. Lovell, Los Angeles County Hospital, Los Angeles, California; Arnold C. Niemeyer, Monmouth Memorial Hospital, Longbranch, New Jersey; Robert A. Powell, Pasadena Hospital, Pasadena, California; Elton W. Recroft, Lakeside Hospital, Cleveland, Ohio; Norvin R. Smith, Lincoln General Hospital, Lincoln, Nebraska; Lloyd L. Thompson, Methodist Episcopal Hospital, Indianapolis, Indiana; H. Randall Tollefson, St. Francis Hospital, La Crosse, Wisconsin; and Walter J. Wherry, St. Vincent's Hospital, Portland, Oregon.

The Chapter was glad to learn that Fred C. Schlumberger, '34, has received a three-year residency in surgery at the Cleveland City Hospital, Cleveland, Ohio, effective July 15, 1935. W. Howard Morrison, '34, has received an appointment to the Illinois Eye and Ear Infirmary, Chicago, Illinois, and Roy R. Rehder one to the Children's Hospital, Milwaukee, Wisconsin. F. Lloyd Meeske is located with Dr. Edwin Davis in Omaha, Nebraska.

At present the social activities of Iota Chapter are being concentrated on the spring rush week, the annual alumni banquet, and the annual lectureship. Spring rush week will be held May 3, 4, and 5, during "pre-med." week at the University medical college. Jim Buis is serving as rushing chairman. The annual alumni banquet is tentatively scheduled for the latter part of May and will be under the direction of Earl Slaughter, who will arrange for alumni speakers. About 40 alumni are expected to attend. The annual lectureship has been accepted by Dr. Irving S. Cutter, past Grand President and dean of the Northwestern University school of medicine. The date has been set for May 20.

Iota has had two very interesting seminars in the last few months. Dr. R. N. Hunt, of the U.S. Navy, spoke on the practice of medicine in the navy, and Dr. J. J. Hompes, of Lincoln, Nebraska, gave an illustrated talk on medical conditions in India.

ALPHA EPSILON CHAPTER

University of Toronto

The new officers who assumed office on February 18, 1935 are: president, A. S. Middlebro; vice-president, J. D. McIntosh; secretary, V. L. Wincott; and treasurer, A. J. Blanchard.

The "Annual-at-Home" of Alpha Epsilon was held on March 6, 1935. Many graduates as well as undergraduates turned out to make this the biggest affair of the year.

ZETA CHAPTER

University of Michigan

Seven men were initiated at ceremonies held on March 6. They are: Richard W. Ashley, George E. Brown, George R. Clinton, Jack N. Jacoby, Reed C. Prugh, George F. Rieth, and Hillis D. Rigterink. Dr. Norman Kretzschmar, as speaker of the evening, discussed the financial, social and professional experiences encountered by the beginning practitioner, and Richard Ashley, representing the initiates, voiced his appreciation of the honor conferred on them by the Chapter.

The Chapter is pleased to inform the alumni that, following its new rushing policy, it has already pledged seven men for next year, all of whom, it is felt, have excellent chances of being accepted for the medical school.

Dr. Robert Dieterle, Z, discussed many interesting phases of psychiatry at the weekly faculty lecture meeting, February 14. Dr. Dieterle has recently become interested in the relationship of hypertension to certain neurogenic disturbances.

Attend ΦPΣ Luncheon at Atlantic City session of A.M.A. Hotel Ambassador Wednesday, June 12th.

ALPHA ETA CHAPTER

Dalhousie University

The Chapter held its annual election of officers recently and the following men were named: Joseph B. MacDonald, president; Robert O. Jones, vice-president; George E. Maddison, secretary; and Ed B. Barnhill, treasurer.

PSI CHAPTER

University of Colorado

John W. Amesse, Ψ, addressed the Chapter on "Choosing an Internship" and on "State Medicine" at the regular meeting. The Chapter has, for one hour at each such meeting, a speaker who is an outstanding man and who brings a vital question before the group. Often he is chosen from a profession other than medicine.

The Chapter held the highest scholastic honors among the four men's medical fraternities on the campus for the Fall Quarter of the present school year.

The Annual Benefit Bridge sponsored by the wives of the alumni of Psi Chapter was well-attended. The receipts are used each year to replace old furniture in the chapter house.

Dr. F. M. Pottenger, Δ, of Monrovia, California, will be the speaker for the Chapter's Memorial Lectureship in April of this year. This Lectureship was established last year in memory of the members of Chapter Eternal of Psi. The lecture is given at the Medical School and is open to the public.

CHI ALPHA CHAPTER

University of Georgia

The Chapter held its annual initiation on the night of February 22, 1935. Five men were initiated: Dubose Eggleston, Thomas E. Fulghum, Robert Martin, John H. Robinson, and Edwin Warren.

A group of local alumni were present and after the initiation a smoker was held during which short talks were given by Dr. G. L. Kelly, Dr. H. M. Michel, Dr. F. L. Lee, and Dr. C. R. Battey. They discussed medical education and fraternalism.

On the night of February 23, 1925, the Chapter gave a very enjoyable dance. A large group of alumni, prospective pledges, and out of town guests were present.

CHAPTER NEWS

(*Continued from Page 4*)

RHO CHAPTER

Jefferson Medical College

The Chapter held the annual election of officers on February 14 and the following men were chosen: W. F. Rongaus, president; W. D. Troy, vice-president; J. F. Wilson, secretary; C. B. Slease, treasurer; J. G. Eicholzer, senior warden; and N. W. Henry, house manager.

All of the Senior members have obtained their desired appointments for internships, George B. Craddock will locate at Philadelphia General Hospital; Philip R. Cronlund at Abington Hospital; Martin F. Guckaven at St. Mary's Hospital, Philadelphia; Edgar W. Meiser at Lancaster General Hospital; and Thomas H. Phalen at Memorial Hospital, Binghamton, New York. James F. Burke, '36, has secured an appointment for a junior internship at Miseriacordia Hospital, Philadelphia, and William D. Troy, '36, has a substitute appointment at St. Vincent's Hospital, New York City.

Dr. Joseph C. Doane, ΑΦ, Professor of Clinical Medicine at Temple University, presented the monthly "Fireside Talk" to Rho Chapter on February 18. His discussion of "Ethics of Medicine" was most interesting and enlightening.

"The alumni members of the Chapter are to be commended for their interest in the activities of the Chapter," writes the Chapter Secretary, John DeCarlo, P, Associate in Anatomy at Jefferson Medical College, and Norman M. MacNeill, P, John F. Coppolino, P, and Edward C. Thomas, P, of the Pediatrics Department of Jefferson, were guests of the Chapter at dinner during February.

ALPHA CHAPTER

Northwestern University

Fireside talks by outstanding alumni have become a popular part of the Chapter's activities. Once each month a member of the faculty has been invited to have dinner at the chapter house and to give an informal talk on some subject apart from academic medicine. Dean I. S. Cutter, A. I. Kendall, Howard Carroll, and Isaac A. Abt have given the members most stimulating evenings.

Stephen W. Ranson, Jr., son of the well-known neurologist, placed highest among the 229 who took the competitive examinations for internship at Cook County Hospital. Ranson is high ranking scholar in the senior class.

Alpha moved into a larger house last summer, and the new residence has well suited the needs of the thirty men living in it now. Twenty-one men were pledged in September, and seventeen became active members at an initiation held on March 2.

The annual Winter Formal is Alpha's biggest social event. The practice of the busy Chicago alumni precludes their attending many of the chapter functions, but every one makes an effort to be at this party. So the Town and Tennis Club on Jan. 26 was the scene of a reunion.

William Perry, social chairman, has been the active mover for an Inter-Medical Fraternity Dance, now scheduled for May 18 at the Furniture Club. This promises to become an annual event.

ALPHA DELTA CHAPTER

Washington University

The members graduating this year have secured internships as follows: Kenneth Larsen and C. R. McAdam, St. Louis City Hospital, and James Herrod, St. Joseph's Hospital in Kansas City, Missouri—all in rotating service; Allen Eschenbrenner in pathology and Charles L. Hoagland in medicine at Barnes Hospital, St. Louis; and Bert Bullington in medicine at Johns Hopkins Hospital.

Following the custom of past years, Alpha Delta and Chi Eta Chapters held a joint initiation, banquet, and dance on February 23, at the Mayfair Hotel in St. Louis. The initiation was well handled by a team of Chi Eta men. Dr. C. Malone Stroud, ΑΔ, acted as toastmaster for the banquet and Dr. Roland Steubner, ΑΔ, Councilor for Missouri, was among the after-dinner speakers.

The Chapter plans to conduct a series of journal clubs on the question of health insurance, with Dr. Steubner, a keen student of such present-day trends, leading the discussions.

A squad composed of brothers Long, Larsen, McAdam, Moseley, Daab, Pletcher, Aker, Lockhart, and Richey represented the Chapter in the intramural basketball tournament sponsored by the University.

The Chapter held its election of officers for the ensuing year on March 23, 1935, and the following men were elected: Kenneth E. Pletcher, president; Martin Compton, vice-president; Harold P. Tompkins, treasurer; Harry G. Moseley, recording secretary; John C. Faris, corresponding secretary; and Irl R. Long, house-manager.

CHI DELTA CHAPTER

University of South Carolina

On March 4, 1935, the following members of Chi Delta Chapter were elected to office: H. F. Hall, Jr., president; J. P. Bookes, vice-president; J. W. Hayes, secretary; W. S. Hall, treasurer; J. O. Ryan, house president; J. B. Floyd, corresponding secretary; and D. L. Cox, Jr., sergeant-at-arms.

LAMBDA PHI CHAPTER

University of Pennsylvania

The following men were elected officers of Lambda Phi Chapter for the ensuing year, at the regular meeting held March 4, 1935: president, George McCrea Markley, '36; vice-president, John Wallace Carnwath, '36; secretary, Joseph William Puerner, '37; treasurer, William Pentz Yahraus, '36; corresponding secretary, Henry Pletcher Close, '37; and house manager, John Robert Montgomery, '37.

Internship appointments for members graduating in June, 1935 are: Regis J. McNamee, City Hospital, Cleveland, Ohio; J. Paul Proudfit, Robert Packer Memorial Hospital, Sayre, Pennsylvania; George K. C. Hayes, Allegheny General Hospital, Pittsburgh, Pennsylvania; Julius M. Wallner, Colorado General Hospital, Denver, Colorado; William A. Guenon, Chestnut Hill Hospital, Philadelphia, Pennsylvania; W. Meredith Heyl and C. Harold Johnson, Philadelphia General Hospital; Horace C. Gibson, Gallinger Memorial Hospital, Washington, D.C.; and James A. Harrill, King's County Hospital, New York City.

FOUNDATION DIRECTOR EXPLAINS SELECTIONS

Those members of the Fraternity who are interested in postgraduate work and who have been considering the Mayo Foundation as a possible place of study may find helpful suggestions in the remarks made by Dr. Louis B. Wilson, director of the Foundation, to those delegates to the national convention of last September who attended the luncheon held during the visit to the Mayo Clinic on the last day of the convention.

The Mayo Foundation, financed by a grant from William and Charles Mayo to the medical school of the University of Minnesota, offers an excellent opportunity for graduate study and medical research, Dr. Wilson said. While most of its activities are in Rochester, he explained, it is a part of the graduate school of the University and is governed by a regent appointed by the Board of Directors, of which the dean of the medical school is a member.

Approximately 1200 applications are received yearly, Dr. Wilson estimated, and from these, 75 men are chosen and designated "Fellows." All applicants are carefully investigated as to their pre-medical education, scholastic standing, class of medical school, internship, sociability, and general aptitude for work, he said, and, in the final selection, preference is given to the youngest applicants, to those with the best premedical and medical school records, and to those from the best medical schools and the best hospitals for internships. Numerically divided, he explained, the selection is as follows: Five-sevenths from the superior Class A medical schools; one-seventh from the other Class A schools; and one-seventh from various units, such as the Army, the Navy, the Public Health Service, and foreign medical organizations.

Some preference in the selection is given to fraternity men, also, Dr. Wilson added, since membership in a fraternity indicates that a man has already been selected by a group, and suggests the possibility that he has proved himself able to live amiably with a group in which he is working. This, he commented, speaks well for the fraternities, as it indicates that the undergraduates do receive training and direction from the upperclassmen of their groups.

If a man selected shows particular interest in a certain branch of medicine, Dr. Wilson stated, he is allowed to devote the greater part of his time to further study in that line—that is, he is encouraged to follow his natural inclinations. Four years, he said, is the average time a Fellow spends with the Foundation.

"FRATERNITY CRITERIA"

(*Continued from page 1*)

"These criteria should be applied in close cooperation with the administrative authorities of the institutions. Detailed methods of application will necessarily vary in accordance with local conditions. It is the purpose of the National Interfraternity Conference to offer detailed suggestions, after further study and investigation, regarding practical steps to make this cooperation effective."

THE JOURNAL
OF PHI RHO SIGMA

is the official publication of the Fraternity and goes monthly to every living member. Subscription $1.50 Single copy 20c

Address all communications concerning the JOURNAL to the Editor, 326 N. Ingalls Street, Ann Arbor, Michigan. Correspondence concerning the Fraternity in all other matters should be sent to Dr. Ralph W. Elliott, Secretary-Treasurer, 10515 Carnegie Ave., Cleveland, Ohio.

The Permanent Committee of the Grand Council of the Fraternity on the Journal is composed of all living past Editors:
Dr. Jonathan Forman, Columbus, O.
Dr. C. Guy Lane, Boston, Mass., Chrmn.
Dr. Francis Jones, Atlanta, Ga.
Dr. King Wade, Hot Springs, Ark.
Dr. H. L. Brehmer, Albuquerque, N. M.
Dr. T. Victor Keene, Indianapolis, Ind.
Dr. Walter Baker, South Bend, Ind.
Dr. C. R. Marshall, Indianapolis, Ind.
Dr. Edgar W. White, New York City.
Dr. A. W. Metcalf, Denver, Colo.

EDITOR

DR. SAMUEL W. DONALDSON, Z, 4293, St. Joseph's Mercy Hospital, Ann Arbor, Michigan.

ASSOCIATE EDITORS

DR. WALTER M. SIMPSON, Z, 3023, Miami Valley Hospital, Dayton, Ohio.
DR. MARSHALL STEWART, A, A, Brennecke Clinic, 323 Main St., Aurora, Ill.

Vol. XXXI February, 1935 No. 4

THIS journal is published by the Fraternity with the hope that it will be read by every living member and in an attempt to interpret the life of the medical student and the work of the Fraternity to the individual alumnus.

YOUR JOURNAL

The function of a fraternity publication is to furnish news to the members of a particular organization. Whether it is one of national scope, or published by and for an active chapter, its function is the same ——to let others know what the fraternity and its members are doing. A large majority of such magazines are issued quarterly but the JOURNAL of Phi Rho Sigma comes to you each month during the school year. In following this policy, we have in mind the principle of direct mail advertising and frequent contact—the more frequent, the greater the chance of arousing interest and of keeping it.

We are aware of the fact that the alumni are widely scattered and are busy professional men who are distracted by their work and other interests. They have lost the influence the college campus has in keeping up interest in fraternity matters and think only of their respective chapters when they hear from it—and that often means a request for money. It follows, then, that the oftener they hear from their chapters or from their fraternity at large, the oftener they think of them and the greater interest they show in their activities.

Alumnus Wants Contact With Chapter

Most of all, the alumnus wants to have news of his chapter and to feel that it is in good standing. He wants news of the happenings at the house; of visits from former graduates or of some one he knew while in school; of what is happening on the campus; and of new buildings, gifts, and changes. These facts can be furnished only through the national publication if the chapter does not get out a regular letter or news sheet of some description.

To compile and publish each month any publication, even a tabloid type of magazine such as the JOURNAL, one must depend upon contributions from members, both active and alumni. The actives we look to for chapter letters and invite them to present articles on other subjects such as house management, freshman training, library, keeping contacts with alumni, or any item which we think would be of general interest and of value to other chapters, but above all, the chapter letter should be newsy and detailed. The best letters are those which are clear to everyone reading them and which do not assume that all readers are as familiar with the situations or persons mentioned as the writer or members of the chapter.

Tips for Corresponding Secretaries

Recently a letter was sent to all chapter secretaries with suggestions as to the collection of news and its submission for publication. It advised, for example, that persons mentioned should not be referred to by nicknames, as that practice identifies them to only a few readers. Visitors should be granted more than just "Brother Jones visited the house last month." Possibly others might want to know which Jones and his year of graduation and where he is now located. The chapter correspondent should attempt to place himself in the position of one graduated several years before and then write accordingly. He should assume that he is writing a news article and omit all banter and verbiage that merely fills space. He should keep notes on interesting happenings and refer to these when preparing his letter rather than put it off until the last minute and then write of a few minor events which come to his mind at that particular moment.

Letters Have "Distinct Value"—Deltasig

Quoting from the March, 1935, issue of the *Deltasig*, publication of Delta Sigma Pi (Commerce), we offer the following: "There has been much discussion by various fraternity editors as to the value of chapter news letters in their respective magazines. Most fraternities continue to publish such letters, regardless of their merit; a few don't. Some fraternities fine chapters for failure to submit letters. In Delta Sigma Pi we feel that the chapter letter section has a distinct value, and it will be retained, but we do not require that chapters submit letters. They are invited to do so, and most of the letters submitted are published, regardless of their merit, but if any chapter fails to submit a letter, it is not subjected to fine or discipline. In time, all chapters will realize that their failure to submit these letters will do them more harm than good, that they will miss out on an opportunity for valuable chapter publicity, and it simply means that other chapters, more alert, will send in more material, which will be published in the space that would otherwise be used by the erring chapters."

Burden Is On Chapter Correspondent

A Chapter correspondent can make or break a chapter in the esteem of other chapters and the alumni. A chapter may be at the head of the fraternity list scholastically; it may carry off all the class honors; its members may be awarded scholarships; it may move into fine, new quarters; its members may have obtained the best internships; it may have had numerous social functions during the year; and it may be completely out of the red financially—but who will know about it if the correspondent procrastinates, even if it is with good intentions and far better excuses for not giving that alloted time each month to his letter of chapter news? Each chapter should support its corresponding secretary and congratulate him if his work is good, but if it is consistently bad he should be deposed and some one whose outside interests and enthusiasms are not so time-consuming put in his place.

Active chapters are not the only offenders, for alumni contributions and news items from certain localities are few and far between. Certain members are dependable standbys and can be relied upon to furnish a letter, clipping, or program each month, and to them we are grateful.

Vote of Thanks

We have just passed through a period of collecting material for this issue. Letters were sent to each chapter requesting a list of faculty members. Some responded promptly as expected; others were written to a second time; and we expect to go to press with some schools unrepresented. Requests were made in a previous issue for every member of a teaching staff to send in his connection, biography, and rank. This was done in an effort to reach men associated with schools where the Fraternity has no chapter.

Some responded and information pertaining to others was gleaned from a study and search of university catalogues. This was a time-consuming task undertaken in an attempt to do justice to all. May we say fervently—"orchids" to those who sent in lists and other data, whether chapters or individuals.

From the section of editorial comments of *The Shield* of Delta Sigma Epsilon for March, 1934, we select the following expression of our sentiments: "This department of *The Shield* has taken the role of verbal chastiser with its warnings, pleas, and raps of the past few issues, and so lest it lose its following—and more because praise is due recent progress in sorority work—the commentators begin this issue with expression of gratitude.

"Chapter letters in the January issue breathed more life and spirit than many of the previous ones, and *The Shield* grasps this opportunity to commend the correspondents. If our plea against unhelpful and drab letters had any part in the improvement, why then the chastisement has been effective."

This publication is for the fraternity and by the fraternity and, as previously stated, we desire either to maintain the interest you now have or to recreate your interest in the Fraternity by this medium of keeping in touch with you.

Attend ΦΡΣ Luncheon at Atlantic City session of A.M.A. Hotel Ambassador Wednesday, June 12th.

FACULTY MEMBERS

(*Continued from page 2*)

George L. Whelan, ΛΦ, M.D., M.Sc. (Med.) Associate in Laryngology.

Stephen Mitterling, ΛΦ, M.D. Instructor in Otology.

George H. Meeker, ΛΦ, Ph.D., Sc.D., LL.D. Professor of Biochemistry and Dean of the Graduate School of Medicine.

[The above-named men are on the faculty of the University Graduate School of Medicine, in the Medico-Chirurgical College. Those who follow are in the medical school proper of the University.]

Seneca Egbert, ΛΦ, Professor Emeritus of Hygiene.

Robert A. Kimbrough, Jr., ΛΦ, Associate in Obstetrics and Gynecology.

Thomas Klein, ΛΦ, Associate in Medicine.

Joseph McFarland, ΛΦ, Professor of Pathology.

Arthur W. Phillips, ΛΦ, Associate in Medicine.

Donald M. Pillsbury, Assistant Professor of Dermatology and Syphilology.

UNIVERSITY OF GEORGIA

Monte Preston Agee, M.D., XA, Associate in Clinical Gynecology.

Colden Rhind Battey, B.S., M.D., XA, Assistant in Clinical Surgery.

William Whatley Battey, M.A., M.D., XA, Professor of Clinical Surgery.

Guy Talmadge Bernard, M.D., XA, Professor of Clinical Surgery and Dermatology.

Charles William Crane, M.D., XA, Professor of Clinical Surgery.

William Henry Goodrich, B.A., M.D., XA, Professor of Clinical Gynecology.

Henry Pierce Harrell, M.D., XA, Associate in Clinical Pediatrics.

William Richard Houston, M.D., XA, Professor of Clinical Medicine.

George Lombard Kelly, B.A., B.S.Med., XA, Dean and Professor of Anatomy.

Frank Lansing Lee, B.S.Med., M.D., XA, Associate in Clinical Medicine.

Moses S. Levy, M.D., XA, Associate Professor of Clinical Surgery.

Henry Getzen Mealing, B.S.Med., M.D., XA, Assistant Professor of Clinical Medicine.

Henry Middleton Michel, M.D., XA, Professor of Clinical Orthopedic Surgery.

William Anthony Mulherin, B.A., M.A., M.D., D.Sc., N, Professor of Clinical Pediatrics.

Eugene Edmund Murphey, M.D., XA, Professor of Clinical Medicine.

William H. Roberts, M.D., XA, Assistant Professor of Clinical Oncology.

George Albert Traylor, B.S., M.D., XA, Professor of Clinical Surgery.

Richard Bynum Weeks, B.S.Med., M.D., XA, Assistant in Clinical Surgery.

John Coskery Wright, M.D., XA, Associate in Clinical Gynecology.

Peter Burum Wright, M.D., XA, Associate in Clinical Surgery.

UNIVERSITY OF ILLINOIS

Chicago, Illinois

Carlos Isaac Reed, Ω, Assistant Professor of Physiology. Ass't in Phys., 1913-15, and Instructor at O.S.U., 1915-18. Ass't Prof. and Assoc. Prof. of Phys., U. of Kansas, 1919-24. Nat'l Research Council Fellow, 1924-25. Assoc. Prof. of Phys., Baylor Med. School, 1925-28. Assoc. Prof., U. of Chicago, 1928. Member Am. Phys. Soc.; Am. Ass'n Adv. Science; Soc. Exper. Biol. Med.; Ill. Soc. Protection of Med. Research; Sigma Xi; Phi Sigma Biol. Research Soc.—past pres. and sec'y; Eighth Internat'l Phys. Congress; and Am. Ass'n of Univ. Professors. Has published 67 articles in various medical journals.

Frederick Tice, Γ, M.D., Professor Emeritus of Medicine.

Harold Douglas Singer, M.D., Professor of Psychiatry and head of the Department of Neuropsychiatry.

Nelson Mortimer Percy, Γ, M.D., Professor of Surgery.

Frederick Howard Falls, M.S., M.D., Professor of Obstetrics and Gynecology and head of the Department.

Henry Bascom Thomas, A, B.S., M.D., Professor of Orthopedics, head of the Department and Director of Orthopedic Institute.

Bernard Fantus, B, M.S., M.D., Professor of Therapeutics.

Frank Chauvet, B, M.D., Associate Professor of Medicine.

George Washington Post, Jr., A.M., M.D., Associate Professor of Surgery.

Russell Dorr Herrold, Γ, B.S., M.D., Assistant Professor of Surgery.

Earl E. Ewert, B, B.S., M.D., Associate Professor of Surgery.

Eric Oldberg, A, M.D., Ph.D., Assistant Professor of Neurological Surgery and acting head of the Department of Surgery.

UNIVERSITY OF TENNESSEE

Memphis, Tennessee

William Krauss, Professor Emeritus of Tropical Medicine. Ph.G., University of Maryland; M.D., Memphis Hospital Medical College; F.A.C.P.

Richmond McKinney, XE, Professor of Otology, Laryngology and Rhinology; A.M., Christian Brothers College; M.D., Memphis Hospital Medical College; F.A.C.S.

Raphael Eustice Semmes, Professor of Surgery. A.B., University of Missouri; M.D., Johns Hopkins University; F.A.C.S.

August Hermsmeier Wittenborg, Chief of Division of Anatomy, Histology and Embryology; Professor of Anatomy. M.A., Imperial College, Hanover, Germany; M.D., College of Physicians and Surgeons (Memphis); (Lambda of Chi Zeta Chi).

Robert Horace Miller, Associate Professor of Anatomy. M.D., College of Physicians and Surgeons (Memphis); (Lambda of Chi Zeta Chi).

William Likely Simpson, Associate Professor of Otology, Laryngology and Rhinology; M.D., University of Illinois; D.Oph., Oxford, England.

Arthur Russell Porter, Jr., Associate Professor of Surgery; M.D., Univ. of Tenn.; (Lambda of Chi Zeta Chi).

Charles Decatur Blassingame, XE, Assistant Professor of Otology, Laryngology and Rhinology; Ph.B., Mississippi College; M.D., Vanderbilt Univ.

Kinsey Mansfield Buck, Assistant Professor of Pediatrics; M.D., University of Tenn.; (Lambda of Chi Zeta Chi).

William Russell Graves, Assistant Professor of Pediatrics; B.S., Univ. of Miss.; M.D., Tulane University; F.A.A.P.

Charles Kelley Lewis, Assistant Professor of Otology, Laryngology and Rhinology; M.D., Univ. of Tenn.; (Lambda of Chi Zeta Chi).

Philip Meriwether Lewis, Σ, Assistant Professor of Ophthalmology; M.D., Univ. of Virginia.

Whitman Rowland, Σ, Assistant Professor of Medicine; B.S., Univ. of Miss.; M.D., Univ. of Virginia.

Walter Lee Rucks, Assistant Professor of Pediatrics; M.D., Univ. of Tenn.; (Lambda of Chi Zeta Chi).

[Note: All the above are attendant to Memphis General Hospital and Baptist Memorial Hospital, except Dr. Miller, Dr. Krauss, and Dr. Wittenborg. Dr. Semmes is attendant to Baptist Memorial Hospital, only.]

Maximillian Goltman, Professor Emeritus of Surgery. C.M., M.D., McGill University. F.A.C.P.

RUSH MEDICAL COLLEGE

University of Chicago

Robert B. Hemphill, B, Clinical Associate in Cardiology. Grad. U. of Ill., 1931; interned West Suburban Hospital, Oak Park, Ill.; associated with Cook County Hospital since 1932, in male medicine.

WESTERN RESERVE UNIVERSITY

Cleveland, Ohio

N. William Ingalls, K, Associate Professor of Anatomy.

John A. Toomey, K, Associate Professor of Pediatrics.

Norman C. Wetzel, K, Assistant Professor of Pediatrics.

Charles W. Burhaus, K, Assistant Professor of Pediatrics.

Chester D. Christie, K, Assistant Professor of Clinical Medicine.

Louis J. Karnosh, K, Assistant Professor of Nervous Diseases.

Argyl J. Beams, K, Assistant Professor of Clinical Medicine.

Donald M. Glover, K, Assistant Professor of Clinical Surgery.

Alan R. Moritz, I, Associate Professor of Pathology.

UNIVERSITY OF MICHIGAN

Ann Arbor, Michigan

Frederick A. Coller, N, Director of the Department and Professor of Surgery. B.S. and M.S., South Dakota State College; M.D., Harvard; Surgical Interne and Res. Surgeon, Mass. Gen. Hosp.; Royal Army Med. Corps and Med. Corps, A.S.A.; Lieut.-Col., M.C., U.S.A.

James Deacon Bruce, E, Vice-President of the University in charge of University relations; Director of Postgraduate Medicine; Executive for Postgraduate Medicine; and Medical Adviser to the University Health Service. M.D., Detroit College of Medicine and Surgery, 1896. Member, Alpha Omega Alpha and Phi Kappa Phi.

John Clifford Bugher, Z, Assistant Professor of Pathology. A.B., M.S., and M.D., University of Michigan; research assistant in Bacteriology and Physiology. Internship, University of Michigan Hospital. Member, Gamma Alpha, Phi Sigma, and Alpha Omega Alpha.

Norman Rudolph Kretzschmar, Z, Assistant Professor of Obstetrics and Gynecology. B.S., 1924; M.D., 1926; M.S., 1931, University of Michigan. Fellow of the American College of Surgeons, 1933.

(*Continued on page 9*)

WITH THE ALUMNI
HERE . . THERE and EVERYWHERE

Dr. Ralph Bowen, M, and Mrs. Bowen have recently returned from a European trip. Dr. Bowen, whose work is limited to the care of allergic problems in children and who is now in charge of the pediatrics division of the Balyeat Hay Fever and Asthma Clinic in Oklahoma City, spent most of his time with Dr. George Bray of the Guys Hospital in London. He is to present a paper on "The Practical Management of the Asthmatic Child" to the Arkansas State Medical Society meeting to be held on April 16.

Dr. Alfred W. Adson, ΘT, professor of neurosurgery in the University of Minnesota Graduate School of Medicine and chief of the Mayo Clinic's Neurological Department, is among the teachers and clinicians who contributed to the 1934 edition of the "Proceedings" of the International Assembly of the Inter-State Post Graduate Medical Association of North America.

Dr. Frederick B. Davies, ΛΦ, of Scranton, Pennsylvania, has been made managing editor of the Medical Society Reporter of the Lackawanna Medical Society—"an honor seldom accorded to such a youthful personage," writes Dr. A. C. Morgan, ΛΦ.

Dr. Donald F. Kyle, Ω, is in practice with Dr. M. I. Marsh in Cedarville, Ohio.

Dr. Marshall Stewart, ΑΔ, associate editor of the JOURNAL, visited Beta Chapter at the University of Illinois on February 4. He reports that the Chapter had a splendid rushing season and pledged ten good men last Fall. It expects to graduate twelve seniors this June, he writes, and plans have already been made to fill their places during the next rushing season. Dr. Stewart visited Alpha Chapter on March 13.

Dr. Jonathan Forman, Ω, read a paper on "Acneform Eruption As A Manifestation of Allergy" before the Cleveland Allergy Society on January 22.

Dr. D. Rusby Seabaugh, ΑΔ, who is practicing general medicine in Jackson, Missouri, was married recently.

Dr. Raymond F. Holden, ΑΔ, is now with the Rockefeller Institute in New York City, after a year's internship in Barnes Hospital, St. Louis, Missouri.

Dr. Paul Buss, ΑΔ, who is interning at St. Louis County Hospital, was married recently to Miss Martha Beam, graduate of the Washington University school of nursing.

Dr. N. L. Burrell, Ω, of Springfield, Ohio, has announced the installation of modern x-ray equipment for urological diagnosis.

Dr. Paul Winder, Z, has recently received recognition for his development of the staph-colon bacteriophage as a means of preventing impetigo contagiosa in infants. New-born, male infants are bathed in this bacteriophage at the University of Michigan Hospital, where Dr. Winder is a staff member, and surprising decreases in the percentage of impetigo incidence have been noted.

Dr. H. A. Wasden, XA, who is practicing in Samson, Alabama, was married recently to Miss Sarah Riley, of Harlem, Georgia.

Dr. William R. Houston, XA, formerly professor of clinical medicine at the University of Georgia, has moved from Augusta, Georgia to Austin, Texas, where he is now in practice.

Dr. Bruce N. Wolff, , associate surgeon at the Annie M. Warner Hospital in Gettysburg, Pennsylvania, is engaged to marry Miss Dorothy Seiple, of Harrisburg.

Dr. Francis I. Sabo, ΘT, is in general practice at Three Forks, Montana.

Dr. Robert W. Du Priest, ΘT, is interning in Fitzsimmons General Hospital, Denver, Colorado.

Dr. Rosel T. Seashore, ΘT, is located at 1703 East Third Street, Duluth, Minnesota.

Dr. G. Leonard Orth, ΘT, is on active duty in the C.C.C., Company 561, Glenburn, California. His permanent address is 1070 Twenty-Second Street, San Diego, California.

Dr. Crit Pharris, XE, is acting director of the Division of Preventable Diseases in the Tennessee Department of Public Health, 116 La Salle Court, Nashville, Tennessee.

Dr. Samuel F. Strain, XE, is in charge of medical work for the TVA in the Muscle Shoals area, at Wilson Dam, Alabama. He says, "Interesting things are going on here. Would like to have any of the Phi Rhos visit this section and let me show them around."

Dr. James A. Conlan, P, is located at 42 Church Street, Pittston, Pennsylvania.

Dr. Francis Hodges, Π, is completing a residency in obstetrics at Passavant Memorial Hospital, Chicago, and in the Chicago Maternity Center. He was ship's surgeon on the S. S. Lucia, Grace Line, last summer and expects to return to sea at the completion of his residency.

Dr. John P. Lorden, Π, is practicing at 2007 Wilshire Boulevard, Los Angeles, California.

Dr. Clifford C. Taylor, Π, is located at 23 East Ohio Street, Indianapolis, Indiana.

Dr. Monte C. Etherton, XH, is temporarily out of medical practice. His present address is 1508 S. Detroit, Tulsa, Oklahoma.

Dr. Horatio R. Melone, XH, is at the Firmin Desloge Hospital, St. Louis Missouri.

Dr. Emery Irwin, AΘ, is practicing at 105 N. Miami, Bradford, Ohio.

Dr. Harold S. Payer, AK, is practicing medicine and minor surgery at 1001 Broadway, Bethlehem, Pennsylvania. He is also associate obstetrician of Sacred Heart Hospital, Allentown, Pennsylvania and is on the staffs of Allentown General Hospital and St. Luke's Hospital, Bethlehem, Pennsylvania.

Dr. Albert C. Daniels, AZ, has completed his internship in Johns Hopkins Hospital, Baltimore, and is now located at 510 B Street, San Rafael, California.

Dr. Leonard Larsen, AZ, is in general practice at Point Reyes Station, California.

Dr. B. H. Van Leuven, Z, is credited in an Associated Press story of March 28, with having performed a post mortem Caesarian operation on a Burt Lake, Michigan woman who had died of heart disease. The eight-pound girl who was delivered was alive and in normal health at the time of the dispatch, artificial respiration applied by Dr. Van Leuven and a colleague, Dr. F. H. Lashmet, having established proper breathing.

Dr. Samuel W. Donaldson, Z, Editor of the JOURNAL, returned to Ann Arbor with his family on March 6 from a two-weeks' vacation in Florida.

The Eleventh Annual Meeting of the Ohio Student Health Association was held in conjunction with the Ohio College Association and allied societies on April 5, 1935 in Columbus, Ohio, with several members of Phi Rho Sigma contributing to the program. Dr. Jonathan Forman, Ω, Lecturer on Diseases due to Allergy at Ohio State University, presented a paper on "Allergic Problems in a Student Body," at the morning session, and in the afternoon, Dr. Walter E. Duffee, Ω, of Ohio State University, spoke on "The Prevention of Football Injuries." Dr. John M. McCleery, K, of Muskingum College, is vice-president of the Association and Dr. R. W. Bradshaw, N, of Oberlin, Ohio, is secretary-treasurer. Dr. P. B. Wingfield, XA, represents the Association at Antioch College, Yellow Springs, Ohio, and Dr. J. W. Wilce, Ω, at Ohio State University, Columbus.

Dr. Bryant R. Selden, B, is doing post graduate work in St. Luke's Hospital, Bethlehem, Pennsylvania.

Dr. Vincent T. J. Lenth, B, is in practice at Ayers Bank Building, Jacksonville, Illinois.

Dr. Robert H. Moore, I, is in private practice at Lansing, Kansas.

(*Continued on page 9*)

ALUMNI NEWS

(*Continued from page 8*)

Dr. Floyd M. Collins, I, is located at 1618½ Broadway, Scottsbluff, Nebraska.

Dr. John C. Sharpe, I, has completed his internship in Johns Hopkins Hospital, Baltimore, and is practicing Internal Medicine at 922 S. 38th Street, Omaha, Nebraska.

Dr. Benjamin H. Harding, ϒ, is practicing in Hamptonville, North Carolina.

Dr. Ira E. Harris, A, is physician in charge of the FERA Transient Camp, Phoenix, Arizona.

Dr. Howard M. Goodsmith, A, is located at 99 Robsart Road, Kennilworth, Illinois.

Dr. Robert B. Montgomery, A, is practicing in Whitewater, Wisconsin.

Dr. Charles E. Mordoff, Δ, is now located at 2134 34th Avenue, Oakland, California.

Dr. Robert S. Brua, AΔ, is at Carlisle Barracks, Carlisle, Pennsylvania.

Dr. Harold Harrison, H, is with the CCC, Company 1792, Camp F-13, Custer, South Dakota.

Dr. Paul E. Pifer, K, has completed his internship in City Hospital, Cleveland, and is located at 625 57th Street, Kenosha, Wisconsin.

Dr. Ronald A. Cox, Σ, is specializing in ophthalmology at 900 17th Street, N. W., Washington, D. C.

Dr. Harry S. Howell, XB, has completed his internship in Grady Memorial Hospital, Atlanta, and is now in the Florida State Hospital, Chattahoochee, Florida.

Dr. Dewey A. Aday, XZ, is located in the First National Bank Building, Barttesville, Oklahoma.

Dr. Vincent L. Scott, K, is limiting his practice to pediatrics. His address is 810 Schweiter Building, Wichita, Kansas. After an intensive training in the Babies' and Children's Hospital in Cleveland, he moved to Wichita last summer. He is on the staff of Wesley Hospital, Wichita Hospital, and Sedgwick County Hospital.

Dr. Don R. Printz, of Ada, Ohio, has been elected delegate for his local medical society.

The engagement of Dr. Clarence Hogue Ingram, Jr., ΛΦ, to Miss Mary Katherine Evans, of New Rochelle, New York, has been announced by Miss Evans' parents.

Dr. Philip H. Kreuscher, A, president of the Illinois State Medical Society, addressed the Kane County Medical Society at Aurora, Illinois on February 13. His subject was "Backache."

Dr. Walter M. Simpson, Z, associate editor of the *Journal*, recently spoke on fever therapy before the Dayton and Montgomery County Medical Society at Dayton, Ohio.

Dr. Clifford Grulee, A, of Chicago, participated in the 71st annual mid-winter meeting of the Chicago Dental Society, held on February 21. He appeared on the medical relations program and read a paper on oral infections in children.

J. F. Hahn, president of Beta Chapter, has spent the past two months in the Illinois Research Hospital where he has undergone two major abdominal operations.

Time magazine for January 21, 1935 relates, in a story entitled "Specialists' Skin," how Dr. Albert Soiland, Δ, head of the Albert Soiland Radiological Clinic of Los Angeles, employs sea water and saline solution to relieve the effects of x-ray dermatitis.

Three members of Phi Rho Sigma are named in the list of 76 talks given by members of the Wayne County Medical Society to lay organizations and scientific societies during the last half of 1934. They are Dr. Grover C. Penberthy, Z, Dr. C. K. Valade, E, and Dr. Earl W. May.

Dr. Maurice L. Tainter, AZ, gave the fourth of the popular lectures at the Stanford University school of medicine. His subject was "Quinine, The First Hundred Years."

Dr. Carl H. McCaskey, Π, has recently been made head of the department of otolaryngology at the University of Indiana.

Dr. Clare Smith, Ω, has located in New Philadelphia, Ohio.

PIONEER SURGEON DEAD

(*Continued from page 3*)

his use of the actual cautery and the radio knife in cancer; his conservatism in chronic pathology of gastric and duodenal ulcer and urgent restrictive operative procedure in the acute types, etc." It indicates, he concludes, "work of a lifelong student, together with courage of convictions and conservatism of the highest order."

A colleague of Dr. Summers and a fellow alumnus of Iota Chapter, Charles F. Moon, has written for the JOURNAL this simple but eloquent eulogy:

"In the passing of Dr. John E. Summers, Phi Rho Sigma and especially Iota Chapter has lost a loyal friend. Dr. Summers was a member in every sense of the word. Always attending initiations, banquets, appearing at seminars at the Chapter House when requested, and liberal with his time and money for the promotion of the Fraternity. It was very unusual when he missed any Chapter gathering and even during the last year we all remember his attendance at functions when probably he should have been home in bed.

"The last tea the Chapter gave one Sunday afternoon Doctor Summers was helped into the house by his chauffeur and those of us close to him were not fooled by his

G. A. Young, I, M.D., Professor, Department of Neuropsychiatry (Chairman).

PIONEER SURGEON DEAD

(*Continued from page 9*)

ready smile and twinkling eye when we felt of his cold hand as he greeted the group clustered around him.

"'J. E.,' as he was affectionately known, was a surgeon of the old school and the very opposite to Ian McLaren's Doctor in "Beside the Bonny Briar Bush." He was always neatly and properly dressed, an artist in all that he did, and possessed of an instinct and surgical judgment which at times appeared to medical students and associates as magic. He came from a long line of medical men and was a pioneer surgeon in the middle west, performing for the first time in this region difficult and, for that day, unusual operations.

"He was an excellent teacher, a master surgeon. Those who lighted their torch from his still carry on; therefore, 'J. E.' still lives in the hearts of all medical men of the middle west, but especially the members of Phi Rho Sigma."
